COLLECTION:	Rever
TYPE:	Porcelain tiles
SURFACE FINISH:	Matt, Grip, AEXTRA20
INTRODUCTION OF THE COLLECTION:	<p>Inspired by natural wood, Rever Collection manifests itself in an original uniqueness, with a high material and tactile value, recreating the traits of authentic craftsmanship for an embracing sensory experience.</p> <p>The collection is developed in five colours, each of which exalts the realism of the material, reproducing the natural irregularities of wood, which dialogue in a delightful interplay of effects, conferring extreme visual richness to details.</p> <p>Almond, a warm glow of a pale almond shade is suitable for spaces with a bright appeal; on the other hand, Choko shade comes as an engaging brown shade, perfect for striking settings; the intermediate Nut shade, plays with warm and golden shades, in which the light-dark colour contrast enhances the inspiring raw material.</p> <p>The extreme care in manufacturing is reflected in the unique features of the three types of finishes, Matt, Grip and Aextra 20. Finally, the “Stave” decors enhance the visual continuity of the product, whose qualities and realism of shapes are further enhanced in the 3D format.</p>
